

Jack Collins Lance Sr. Memorial Project

Inspired by many factors, including Jack Collins Lance Sr's love for the Union County community and the local Union County Athletics programs in which he participated in as an athlete, mentor, and coach, this project is geared towards the goal of combining all possible official stats associated with the Union County High School Athletic Program. In addition to being inspired by Jack's love for Union County and its local high school athletic program, the project unofficially began years ago when Jack's grandson, Jake, took up the hobby of accumulating stats associated with Union County as a young teenager after being encouraged to do so by Jack. The accumulation of these stats all began after Jake found the stats and newspaper clippings of Jack's high school basketball, baseball, and track and field careers. Proud of what his grandfather had accomplished as an athlete and what other Union County teams and athletes had accomplished, this gave Jake the curiosity and drive to compile other Union County sports statistics such as championships won, state tournaments made, individual and team records held, and as many other statistics as possible in order to keep up with the stats and successes of Union County Athletics. By 2017, 4 years after Jack Lance's death, Jake decided to officially start the "Jack Collins Lance, Sr Project" for the purpose of displaying and sharing these stats inside the Union County Historical Society "Sports Room". His hope was to see others with a love for Union County athletics become involved and to add to the project as the years progressed so that the stats would continue to be shared and saved for future generations. Any and all parties who would like to do participate in this project are highly encouraged to do so. The following stats were last updated in March 2024. These stats date back to the 1950's and into the late 2010's and includes the following:

Note To Union Countian Sports Fans and Other Visitors:

Now that the new "Greetings From Union County, Georgia" mural, located in Downtown Blairsville, is intended for interactive purposes, Jake has decided to slowly begin the process of attempting to transfer these stats from physical form into a digital form so that others interested in keeping up with/accumulating the stats and history of the Union County High School Athletic Program can do so. Now that Jake is older and no longer living in Blairsville full time, he is also no longer keeping track of the newer and upcoming stats. Therefore, with this said, he asks that those who are living in Union County that are interested and involved in the Union County High School Athletic Program will help keep the tradition of keeping up with these stats alive. Like his grandfather, Jack, Jake believes that the only way for the Union County Athletic Program to rate the degree of it's success(present and historic) and to continue to improve is to know it's official statistics.

Starting this transfer of physical documents to digital documents will begin below with a list and overview of Union County's state and region championships, state tournament appearances, as well as current team records and finishes. Also included will be partial series records that can only be traced back so recently. In coming months and future years, the goal is to accumulate all or as many Union County Panthers statistics as possible to share with Union County Panthers fans so that you all can know your stats and keep up with the success being attained and that will be attained for years to come by the Union County High School Athletic Program.

Other Important Notes:

If you would be interested in helping gather or adding missing stats or helping to correct any possible incorrect stats shown, you will be required to show official documentation and/or proof. To contact Gooch and Fifty to make and/or request these changes, please reach out to contact@goochandfifty.com where your requests/inquiries will be handled.

As for this document, please be aware that some specific areas "seem" scuffled as some tables shown are too large to remain on 1 page alone, but each table will be titled. As each table extends from page to page, be sure to look for "Cont'd Below" notes to stay on track and to avoid confusion while reading. Also, some empty boxes may show up which are to be ignored.

Union County Series Records VS. Northeast Georgia Mountain Counties/Schools(See Next Page)

*****Important to Note*****

Currently, there is only officially all-time series record results for the sport of football. Other sports series records listed only go back so far and will demand extensive research, help, and support in order to retrieve and attain so that these series records can be corrected and updated.

These series records are only against schools in the defined “Northeast Georgia Mountain Counties/Schools” that are defined as the counties of: Banks, Dawson, Fannin, Gilmer, Habersham, Lumpkin, Pickens, Rabun, Stephens, Towns, and White.

Football

The results accumulated for the following series records were found online at ghsfha.org, a website dedicated to keeping stats for Georgia high school football. Of all sports series records, football is the **ONLY** sport that is 100% completed and that will not require any additional research.
